

A large industrial drilling rig is shown in a snowy outdoor setting. The rig consists of a tall, lattice-structured derrick with a white control cabin, mounted on a large, tan-colored metal base. The base is surrounded by a concrete foundation and has several sets of stairs leading up to it. The ground is covered in snow, and the sky is clear and blue.

**We specialize in:**

- **Design/Fabrication of Drilling & Workover Rigs**
- **API licensed Repair and Upgrade**
- **Immediate Service - Worldwide**
- **Engineering and Support**
- **Quality Management**
- **Mechanical Systems**
- **Electrical Systems**

**Bentec's Abilities = Rig Competence**
